BUTLER COUNTY SEEKS VOLUNTEERS FOR SOLID WASTE POLICY COMMITTEE

Butler County Recycling & Solid Waste Management District (BCSWD) is seeking several volunteers to serve on the Solid Waste Policy Committee in the position of **“public representative”** and **“industrial/institutional representative.”**

The Solid Waste District Policy Committee is responsible for developing a 15-year solid waste management plan. Butler County is preparing to update its solid waste management plan in spring 2022. This two year process will include submitting a new draft plan to the Ohio Environmental Protection Agency in August 2023, with a final document due in November 2024.

The District is seeking two individuals to serve as “public sector representative” and one individual from the industrial/institutional sector. Individuals who wish to serve as public representatives must be area citizens who have no conflict of interest through affiliation with a waste management company or with any entity that is a significant generator of solid waste. The industrial/institutional representative should bring experience in manufacturing, materials management and/or experience in sustainability for organizations such as universities, hospitals or schools.

Candidates should be able to attend four yearly meetings. The District may hold additional meetings on an “as-needed” basis. Meetings are generally held on first or second Monday of the month at the Butler County Government Services Center, 315 High Street in Hamilton. The public representative and industrial representative appointments to the Solid Waste District Policy Committee are for a two-year term.

Prospective candidates should send a letter of interest, complete the application (available at www.recycle.bcoho.us) and submit a biography or resume to Butler County Solid Waste District, 130 High Street, Hamilton, Ohio
